TRADEcho 3.10 Next Functional Release – Friday 5 November 2021

The purpose of this Service Announcement is to inform customers that the TRADEcho Customer Development Service (CDS) will be upgraded to TRADEcho 3.10 on Friday 5 November 2021. The TRADEcho CDS environment will be unavailable on this day and customers will not be able to connect. It is expected that the environment will be available as usual on Monday 8 November 2021.

TRADEcho release 3.10 includes the following changes:

- Enrichment of the Chatbot features
- Improved labelling on the TRADEcho Web Portal
- Improved FIX message throttling mechanism for quote submission

For a full list of changes customers can view the updated specifications and release notes via the following link.

Technical Library Trade - Resources | London Stock Exchange – TRADEcho – Next Functional Release

This release contains no mandatory changes and, as such, no mandatory certification is required. Customers that do make changes to their software will need to complete a certification test. Customers are advised to test this release before it is introduced in Production.

The production go-live for this release is expected to be early December 2021. The exact date will be confirmed in a future Service Announcement.
