TRADEcho Customer Development Service Upgrade 3.7 Release – Monday 26 October 2020

The purpose of this Service Announcement is to inform customers that the TRADEcho Customer Development Service (CDS) will be upgraded to TRADEcho release 3.7 on **Monday 26 October 2020**. The TRADEcho CDS environment will be down on this day and customers will not be able to connect.

It is expected that the environment will be available as usual on **Tuesday 27 October 2020**.

TRADEcho release 3.7 includes the following changes:

- New FIX tag (27020) for base 10 TVTIC to assist transaction reporting customers
- APA and SRR trade search will now return 10,000 rows
- Assisted reports can now be sent to BATS via CSV
- SecondaryFirmTradeID (tag 1042) to be added to TCR-S and TCR-C messages

For a full list of changes customers can view the updated specifications and release notes via the following link under the section 'TRADEcho – Next Functional Release':

<https://www.londonstockexchange.com/products-and-services/technical-library/millennium-exchange-technical-specifications/millennium-exchange-technical-specifications.htm>

This release contains no mandatory changes and as such, no mandatory certification is required. Customers that do make changes to their software will need to complete a certification test. Customers are advised to test this release before it is introduced in Production. A production go-live is expected late in Q4 and exact dates will be given in a future Service Announcement.
