Introduction

This document contains details of London Stock Exchange plc fees for both United Kingdom incorporated ('UK') companies and overseas incorporated ('International') companies admitting securities to trading on the following London Stock Exchange markets: the **Main Market**, **Professional Securities Market** and **International Securities Market**. The fees are also payable for securities that are admitted to trading via an EU competent authority passport and any other securities that are admitted to trading without seeking admission to the Official List.

This document should be read in conjunction with the [Admission and Disclosure Standards](#).

This document also contains a summary of admission and annual fees payable by **AIM** companies (see page 15). The full AIM fees for companies and nominated advisers brochure is available at: <https://www.londonstockexchange.com/resources/raise-finance-resources?tab=aim>.

Admission fees¹ are payable on all applications for securities to be admitted to trading on any of London Stock Exchange's markets. An invoice for the admission fee will be raised at that time. Payment of admission fees must be received **no later than 30 days after the date of such invoice**. In the case of equity issues admitted to the Main Market, the Professional Securities Market or admitted to trading without seeking admission to the Official List, the same fee scale is applied for admission fees – for new companies **joining the market** and for **further issues of securities** by companies already admitted, based on the market capitalisation of those securities at admission. Companies subject to a **reverse takeover** pay admission fees according to the new company scale. For AIM admission fees, there are two separate fee scales, one for new companies **joining the market** and the other for **further issues of securities** by companies already admitted, based on the market capitalisation of those securities at admission. The Main Market includes the following segments: i) securities admitted to the Official List, ii) the Specialist Fund Segment and iii) the High Growth Segment. An admission fee is payable for transfer between these three segments. In the event of an application being made where more than one line of security is being admitted, a separate fee will be charged for each class of security, according to the relevant schedule. A transfer of existing shares from Admission to Trading (ATT)² to the Main Market may be eligible for a discount on the admission fee. If the transfer is made within 3 months of being admitted to ATT, a 75% discount applies. If the transfer is made between 3 and 12 months, a 50% discount applies. Transfers made after 12 months are not entitled to a discount.

Admission fees are not refundable, including where securities cease to be traded. For rights issues the market capitalisation is based on the issue price available from the prospectus.

Non-chargeable applications

The following is a list of non-chargeable transactions for companies admitted to the Main Market, the Professional Securities Market or otherwise admitting to trading:

- Capital reorganisation
- Sub-division of capital
- Consolidation of capital
- Redenomination of capital
- Capitalisation of reserves
- The reclassification of shares in order to liquidate a company under a scheme for reconstruction
- Block listings for issue of shares under employee share schemes with market capitalisation below £2m³
- Further issue of shares to staff and directors under an employee scheme (for example long term incentive scheme, performance bonuses, exercise of options) with market capitalisation below £2m³
- Further issues of shares issued under an existing offer for subscription

If in doubt, or for clarification, issuers or their advisers should contact Market Operations on +44 (0)20 7797 4310 or email admissions@lseg.com.

¹ Please note the market capitalisation is based on the opening price on the day of admission.

² ATT is defined in London Stock Exchange's [Admission and Disclosure Standards](#)

³ Not applicable to AIM

Annual fees are payable by all companies that have either equity securities or certificates representing shares admitted to trading, and by issuers of all Exchange Traded Funds and Exchange Traded Commodities. Annual fees are billed for:

- Equity securities or certificates representing shares, in January 2021 for 12 months commencing 1 January;
- Exchange Traded Funds and Exchange Traded Products, in January for 12 months commencing 1 January.

Annual fees are to be paid by Direct Debit where possible. A pro-rata portion of the annual fee is payable by all issuers of equity securities and certificates representing shares when commencing trading on the London Stock Exchange for the first time part way through the year. From 1 January 2021, the pro-rata portion will be based on the calendar year (January – December). No additional pro-rata annual fee is payable for companies transferring between markets.

The annual fee is for each year or part thereof and is therefore not refundable, including where securities cease to be traded. The minimum annual fee is payable by suspended issuers where applicable.

No additional annual fee is payable by a company admitted to trading as a result of a reverse takeover or a readmission.

Definitions of terms used in this publication are included in London Stock Exchange's Admission and Disclosure Standards and the AIM Rules for Companies.

Calculating market capitalisation for admission fees

Equity securities (including certificates representing shares)

Multiply the total number of securities for which application(s) is being made by the opening price⁵ on the day of admission.

Fixed income, floating rate securities and international debt securities

As stated on the face value of security.

Exchange rates

For securities denominated in a currency other than pounds sterling, the market capitalisation must be converted into pounds sterling at the exchange rate printed in the edition of the Financial Times 'FT guide to world currencies', published on the Monday immediately preceding the date of admission. The rate advised in this edition will be used for all currency conversions during that week.

⁵ The opening price is the first price at which the uncross takes place. Should the first uncross price not be available, then the mid-price of the best bid-ask on the first day will be used. In instances whereby neither of the aforementioned are available, London Stock Exchange will use the last price (if available).

Admission and further issues fees – UK and international companies (including investment entities)⁶

Equity securities – ordinary shares, common stock

Annual fees - UK and international companies¹⁰

Equity securities – ordinary shares, common stock

Issuers of equity securities must pay an annual fee for securities admitted to trading on the London Stock Exchange. Annual fees are based on the market capitalisation of the issuer at close of trading on the last business day of September in the preceding year on the London Stock Exchange.

To determine the annual fee:

- round up the market capitalisation to the nearest £1 million
- multiply the market capitalisation value (£m) by the corresponding figure in column (b)
- the minimum and maximum fee payable by an issuer are reported in column (a) and column (c) respectively.

Minimum fee (£)	Increment per £m	Maximum fee (£)

- Where admission to trading occurs after 30 September 2019, the market capitalisation used in the above calculation is the market capitalisation of the securities at the time of admission¹³.

Note: Preference shares may be treated as either equity or debt securities. Classification is dependent upon the class used by the relevant competent authority for the issuer. In both cases, an admission fee will apply; however, no annual fee will be payable.

¹⁰ Not applicable to AIM – for AIM company fees, please see Page 15.

¹¹ If an existing London Stock Exchange issuer joins the London Shanghai Stock Connect programme after 1 January 2021, the Stock Connect component of the annual fee will be calculated as the difference between the 2021 Stock Connect programme annual fee and the issuer's January 2021 annual fee, which is then pro-rated for the remaining months of the annual fee billing cycle (January – December).

¹² Please note that the discount does not apply to listed funds.

Application review fees

Applications from issuers of debt securities to admit onto London Stock Exchange's International Securities Market must pay a fee for the application review. Applications to the Main Market or Professional Securities Market are not reviewed by London Stock Exchange as this is instead carried out by the FCA.

Application review fees are based on the category of admission particulars to be reviewed as follows:

Admission Particulars Type	Fee (£)
Standalone admission particulars	2,000
Programme admission particulars	2,000
Supplementary admission particulars	500
Pricing supplements	No charge

²¹ For the purpose of the above fee exemption, an issuer will be considered a Charity if it is a registered charity as per section 30 (1) of the Charities Act 2011 ("Registered Charity"). Any charity that is exempt from registration requirements pursuant to section 30 (2) of the Charities Act 2011 ("Exempt Charities") may also apply for the fee exemption, which will be considered by the Exchange on a case by case basis. Exempt Charities must request the fee exemption in writing and provide any documentation requested by the Exchange to demonstrate that the charity is an Exempt Charity. Notwithstanding anything herein to the contrary, any and all such fee exemption(s) will be granted at the sole discretion of the Exchange.

²² In the case of debt securities issued through Special Purpose Vehicles where the proceeds are exclusively used to fund loans to Charities, the legal documentation (i.e. a prospectus for stand alone issues or the final terms for issues under a debt issuance program) must make clear that this is the exclusive purpose of the instruments and must explicitly include the name of the Charity as beneficiary of the debt issuance.

Notes

Preference shares may be treated as either equity or debt securities. Classification is dependent upon the class used by the relevant competent authority for the issuer or in the case of admission to International Securities Market agreement with the London Stock Exchange. The admission fee will be based upon this classification. In both cases, an admission fee will apply, however, no annual fee will be payable.

Admission Particulars in relation to a Schedule 9 application for admission to International Securities Market will be treated as Standalone and therefore issuers will be required to pay the application review fee.

International Securities Market Admission Review Fee Promotions

Any issuers with securities admitted to any of London Stock Exchange's equity markets who submit an application for debt securities to be admitted to International Securities Market are eligible for a one off waiver of the International Securities Market application review fee.

New issuers setting up an MTN programme on International Securities Market for the first time can defer the payment of the application review fee until the first drawdown under the programme, or at the end of the financial year, whichever is earlier.

Admission Fees

Admission fees	ETF Fees	ETC and ETN Fees
Individual security	£6,000	£6,000
Daily cap where up to 10 securities are admitted on the same day	£30,000	£30,000
Each additional security in excess of 10 on the same day	£2,000	£1,000

ETF example, if an issuer lists 13 ETFs on London Stock Exchange on the same day, their fees will be calculated as follows:

- Admission Fee: £30,000 (daily cap where up to 10 securities admitted on the same day) + £6,000 (3 * £2,000; each additional security in excess of 10 on the same day) = £36,000

ETF and ETC/ETN example, if an issuer lists 1 ETF and 13 ETCs or ETNs on London Stock Exchange on the same day, their fees will be calculated as follows:

- ETF Admission Fee: £6,000 for the ETF Individual Security
- ETC/ETN Admission Fee: £30,000 (daily cap where up to 10 securities admitted on the same day) + £3,000 (3 * £1,000; each additional security in excess of 10 on the same day) = £33,000
- Total Admission Fee = £39,000

New Issuers

Fees for admission of securities by new issuers will have a cap of £30,000 where up to 10 securities are admitted within the calendar month of becoming an ETF/ETP issuer on the London Stock Exchange.

Annual fees

Annual fees are payable by issuers on each individual ETF and ETP admitted to trading on the London Stock Exchange's Main Market, excluding multi-currency lines. Annual fees are based on the market capitalisation of each fund at close of trading on the last business day of November in the preceding year.

Annual fees are applicable for each financial year (Jan-Dec) or part thereof. It is therefore not refundable where a security ceases to be traded during a chargeable period. In the financial year of admission, £1,500 will be charged on a pro-rata basis based on the month of admission; thereafter the fees table below will apply.

Annual fees for ETFs and ETPs are based on market capitalisation of the ETF and ETP

Market Capitalisation		Fee
Lower Band (£)	Upper Band (£)	
0	99,999,999	£1,500
100,000,000	749,999,999	£3,360
750,000,000	1,499,999,999	£8,960
1,500,000,000	and over	£16,800

Market cap of ETFs and ETPs are calculated as the Net Asset Value (NAV) per share, multiplied by the number of shares outstanding.

Annual fees for ETFs and ETPs can qualify for a discount depending on the number of ETFs and ETPs listed by the issuer, as follows:

Number of ETFs/ETCs/ETNs	Discount*
First 0 – 50	0%
Next 51 – 100	10%
Next 101 or more	15%

* The discount is calculated on an incremental basis by reference to the number of ETFs and ETPs the issuer has in each band. For example, the discount for an issuer with 200 ETFs/ETPs is calculated as follows:

$$(50 * 0\% + 50 * 10\% + 100 * 15\%)/200=10\%$$

Annual fees are not payable in respect of ETFs admitted to the EOTC (trade reporting only) sector. Additionally, Annual Fees for ETFs and ETPs can qualify for a further discount depending on the LSE Average Daily Value Traded (ADVT) of the instrument, as follows:

ADVT (£m)		
From	To	Discount
0	1	0%
1+	2	20%
2+	4	40%
4+	8	60%
8+	16	80%
16+		Minimum fee: £1,500

ADVT will be calculated based on the ISIN code of the instrument, including value traded from multi-currency lines.

The ADVT discount will be based on the previous calendar year's trading.

The ADVT discount will be applied after calculating the discounts for Number of ETPs and cross-listings.

Instruments receiving the maximum ADVT discount are not eligible for further discount based on the number of ETFs and ETPs listed by an issuer.

Issuers delisting their entire range

A separate annual fee structure is applied to issuers delisting their entire range of ETF/ETPs from our markets, at the parent legal entity level. The annual fee levied on an issuer that is delisting their entire range, will take into account the period of time the instruments remain listed in that year of delisting. The fees will be charged as follows:

Month of delisting	Fee Applied
January	No Fee
February – March	Annual Fee x 25%
April - December	Annual fee

For any other ETF/ETP delisting, the standard annual fees will be charged.
