The purpose of the Service Announcement is to introduce a new service, Exchange Level Controls (ELC), which are available to General Clearing Members (GCM) and Members upon request.

ELC are designed to manage the risk of trading users. ELC consists of:

- Real-time gateway level validations.
- Real time risk exposure monitoring via Risk Monitoring Portal, with kill switch.
- FIX Drop Copy with kill switch.
- Configurable alerts which are trigged when limits are breached.
- Instrument restriction capabilities

Further information about ELC is provided in the Exchange Level Controls Technical Description document found on the following website.

https://www.londonstockexchange.com/resources/trade-resources?tab=technical-library

Customers should contact their Technical Account Manager or the Technical Account Management team (londontam@lseg.com) to be enabled on this service.

Additional Information

If you have any queries, please contact your Technical Account Manager on +44(0)20 7797 3939 or londontam@lseg.com.

An archive of previously issued service announcements is available in the technical library section of London Stock Exchange's Internet site http://www.londonstockexchange.com/techlib

Customers are reminded that London Stock Exchange may broadcast test data from its Production environment at the weekends which should be discarded and not processed.

Customers are reminded that London Stock Exchange may extend or re-enter the Post Close session for instruments or segments in order to perform necessary end of day activities.
