TRADEcho 3.11 Next Functional Release - 25 February 2022

The purpose of this Service Announcement is to inform customers that the TRADEcho Customer Development Service (CDS) will be upgraded to TRADEcho 3.11 on Friday 25 February 2022. The TRADEcho CDS environment will be unavailable on this day and customers will not be able to connect. It is expected that the environment will be available as usual on Monday 28 February 2022.

TRADEcho release 3.11 includes the following changes:

- Customers can upload APA CSV files via SFTP
- MTF and OTF venues can now report trades of symbols unknown to TRADEcho
- Determination of Counterparty Jurisdiction is ignored if the firm is a Non-MiFID II Investment Firm
- Improvement to current SI Quotes Throttling Mechanism

For a complete list of changes customers can view the updated specifications and release notes via the following link.

This release contains no mandatory changes and, as such, no mandatory certification is required. Customers that do make changes to their software will need to complete a certification test. Customers are advised to test this release before it is introduced in Production.

A production go-live for this release is expected in Q1 2022. The exact date will be confirmed in a future Service Announcement.
