Notes

Order book business

Order and quote charges

¹ Non-persistent orders

An order with a Time in Force that prevents it residing on the order book is considered to be a non-persistent order:

- IOC - Immediate or Cancel
- FOK - Fill or Kill

² Order and quote management surcharge

The order and quote management surcharge ("surcharge") applies, in addition to any applicable order management charge, to each order or quote event (entry, modification and deletion) ("event") in excess of the applicable figure in the table below. The surcharge is assessed separately for each member firm in each segment on a daily basis, with the exception of ETFs (segments ETFs, ETF2, ETFU, EUE2, EUET, IECF and IECR) and ETPs (segments ETCs, ETC2 and ETCU) which are assessed for each member firm in each product group (i.e. ETFs or ETPs) on a daily basis.

Security	Number of events per trade permitted before surcharge payable
FTSE 100 Index securities, FTSE 250 Index securities	500 per electronic trade (automatically executed trades during continuous trading and auctions)
Exchange Traded Funds, Exchange Traded Products	2,000 per electronic trade (automatically executed trades during continuous trading and auctions)
EQS securities	500 per reported trade
All other securities	No surcharge

The number of events permitted (by reference to the table above) will be aggregated on a daily basis, and the surcharge will be payable for each event which exceeds that aggregate. For example, for FTSE 100 Index securities, FTSE 250 Index securities and EQS securities if 10 trades are made in a day, the aggregate number of events permitted before the surcharge becomes payable is 5,000 while that for ETFs and ETPs is 20,000.

For FTSE 100 Index securities, FTSE 250 Index securities, EQS securities; if no trades are made on any day, the number of events permitted before a surcharge is payable shall be 500.

Entries, modifications and deletions of Executable Quotes in FTSE 100 Index and Firm Quotes in EQS securities in excess of 100 per registered security will be added to the number of order events made in a day when assessing the surcharge. Any other Registered Market Maker quotes do not attract a surcharge. For example, if a Registered Market Maker in 6 EQS securities uses 675 quote updates per day, only 75 events will be added to the number of order events when assessing the surcharge.

For ETFs, ETPs; Order and quote events and trades by a Registered Market Maker, and events and trades generated by Cross Orders, BTF and RFQ functionality are excluded from the application of the surcharge. The surcharge is not applied if the number of events is below 20,000. To qualify for the reduced high usage surcharge available: for ETFs, member firms must rank amongst the top 5 by monthly value traded in ETFs, and for ETPs, member firms must rank amongst the top 5 by monthly value traded in ETPs.

Exchange charge

³ The charge for each order executed in part or in full, without reference to the number of executions incurred. Where an order executes over multiple days a charge will apply on each day it executes.

For the application of the exchange charge, the securities are classified as:

- Equities (segments: AMSM, ASQ1, ASQ2, ASX1, ASX2, ASXN, HGS1, HGS2, HGS3, SET0, SET1, SET2, SET3, SFM1, SFM2, SFM3, SFM4, SSMM, SSMU, SSQ3, SSX3, SSX4, STMM)
